## Have your say on the city's climate action plans!

Manchester Council are asking you, the residents, and communities, about the kinds of actions you are already taking to reduce your carbon emissions, and what support you need to do more. This information will help them understand the barriers you are facing that are stopping you reducing your carbon footprint, and to develop the actions that we all must do now.

We know that we must all act now and prioritise actions to drastically reduce the city's carbon emissions over the next few years - these actions will form the basis of the city's new Climate Change Framework and Action Plan 2021-2025
